Dear Friend and Valued Customer:

This is our Fall and Christmas list. In it we have listed some new items, some potted plants in good supply that we have reduced in order to prepare for next season, a few old standbys that are ideal as gifts for the holidays or other occasions, and an up to date book list.

May we point out to you our own introduction, the sensational new "BAMBUSA UPPER SADDLE RIVER" which survives outdoors below zero or indoors under trying conditions? Or perhaps the economy-priced pottery garden lanterns just in from Japan and a perfect substitute for those who need a lantern but just can't afford real stone at present? Then there's our Beginner's Bonsai Kit which has brought us a flood of praise from the novice at this art who has either purchased one or received one as a gift (Incidentally our plants this year are outstanding). And don't forget, we will send an appropriate gift card at no extra cost to you on any item listed. This price list will cancel any previous price lists received. You may still order from our regular catalog sent out previously this year and we will endeavor to accomadate you.

In closing may I thank you all for a wonderful year. We have shipped thousands of our bamboos and other plants all over the world, we have supplied the estates of the wealthy and the backyards and gardens of the average person, we have heard complaints and blushed at praise. It has been hard work but we have been rewarded monetarily and, what is more important, in a sense of fulfillment. God bless you and the compliments of the season to you.

Very truly yours,
The Bamboo Man
